COMMERCIAL. Monetary.

In monetary affairs, we have very little change to note since our last report. Money continues in setive request, and on account of the light receipts of produce, we have yet experienced but little of that benefit from the increase in the productions of the soil, which we may confidently expect. The prospect for an abundance of capital was never better, and as soon as the farmers send in their wheat the good effect will be felt. In sections of the country where for three or four years past, there have been continued failures of the crops—this year there is a most abundant yield, and though prices may rule low, the great yield we hope will more than make up the difference. Farmers and country merchants who have been pressed and cramped for two or three years, and who have been compelled to curtail their operations, will now be able to meet their liabilities, and thus money will soon become abundant, and good securities will be sought, for investment. We notice that in New York money is hardening, though there is no quotable change in rates. In Baltimore, money has again become easy, and capital continues plenty. There is now no difficulty in placing first class single names at 7(a,8 \$ ct.; while the Banks are in condition to do all the commercial paper offering. In Stocks, there has been no activity. We quote Orange and Alexandria Railroad S p cent. bonds at 90 flat; Bank of the Old Dominion Stock par; Corporation of Alexandria bonds 827. In the New York stock market, on Thursday afternoon, there was a large business done in government securities at 1002 for fives of 1865; 1013 for fives of 1871, and 107 for sixes of 1867. State stocks were active and higher. Missouri sixes advanced & Virginia &, and Tennessee 2. Ohio sixes of 1860 were sold at 995, and Louisiana's at 93. Exchange on New York is scarce at 1(a 2. Land Warrants are quoted in New York as follows :- 40 acres 100 (a 110e ; 80's 88(4,92c.; 120's 80(4,84c.; 160's 88(4,92c.

1 00 (a) 1 25 0 50 (b) 0 60 HAY 79 100 fbs ... REMARKS .- The Breadstuffs market during the week has been unsettled, the demand being limited, and the receipts small. Prices have been drooping, and yesterday the news by the Africa caused a general decline. There is a fair supply of Flour on the market, but the demand is limited, being principally confined to the city trade, and quotations are nominal, viz: \$5.50(@\$5.75 for ... Union street Superfine. We heard of a small sale of Superfine from new Wheat on Thursday at \$6.25, but these figures cannot be given as market rates. Extra is quoted at \$6.50(a\$7, and Family at \$7.5060 \$8.25 for ordinary to choice brands .-There is a very fair supply of new Flour, and our outside figures are for that description. Wheat, which had rallied a little, was again depressed yesterday, and prices went down, sales being made on 'Change of fair white at 122c., and prime red at 118c. There were no offerings of prime white. for which we quote 125c., with some enquiry .-Farmers are still holding back, but the indications are now unfavorable to a rise. Corn has been dull, but prices have undergone no material change during the week. Yesterday, sales were made at 80c, for white. Rye is in limited demand, princi pally for distilling purposes, and we quote at 70c. for prime. There has been a better demand for Oats, and prices have advanced on last week's figures, closing firm at 35(a, 37c., with a fair supply of old on hand. No new has been on the market. Corn Meal is in light domand, and good supply at last week's prices, viz: 85(490c. Hay is abundant at 50 (a 60c. 3 100 lbs. Sumae is wanted at figures given above. In Groceries, the market for sweets at the beginning of the week was in a very unsettled and unsatisfactory condition. Prices ruled an & lower by the quantity than the previous week-Quotations, however, could not be relied upon. The news of an Armis tice and the prospect of peace has so far had the effect of advancing sweets, and they now show that advance to be fully 1 ct. p th. on raw, and 1 to I on refined Sugars. Buyers in the North are taking hold freely at the advance. Handsome Sugars are scarce and high. Molasses nuchanged, though firmer at quotations. Coffees very firm. Other articles unchanged. Business fair. Sugars may be quoted to-day at the following rates, viz: Cubas 766 Se.; Porto Rico 7166 9c.; New Orleans 71699c. Molasses 291, 33, and 35c. Provisions are unchanged and quiet. Plaister is in active demand, with a fair supply. We quote \$3.75 P ton for lump, delivered on the cars-ground Plaister is in fair request at former quotations, \$7 pt ton. Fertilizers continue in active request, and farmers are sending in large orders, and quantities are daily the steamer C. C. ALGER, will, for this trip. going off by Railroads and River. Mexican \$25; Kettlewell's Manipulated Guano, No. 1, \$50; do. No. 2, \$45; DeBurg Excelsior \$45; Boital's Super Phosphates \$43. The receipts of Wool have fallen off slightly, while the demand has not abated, and while we notice a decline in other markets, prices have not given way here, and we quote

last week's rates as present prices, viz: 46@50c. for

washed Merino; unwashed do. 30(&35c.; common

unwashed 25@26c.; do. washed 33@37c., and

Tobacco. Receipts and breaks continue light, and the demand is decidedly more active for all descriptions, at a slight advance. The news received from Europe to-day will doubtless have a favorable effect on the market.

WHEAT.—There is no change to note in prices Wheat; the market continues firm at the opening rates, to wit: \$1.40 for prime red, and \$1.00 for ime white. The receipts continue light. FLOUR.—Receipts are light. New is held at \$7 50, but no sales. There is no shipping demand for either old or new flour, and quite a limited one to the city trade. Commerce of Charleston.

The total value of the articles exported from Charleston during the second three months of 1859, amounts to \$4,051,269, of which England took nearly three-fourths-Spain, Bremen, France, and Cuba following next in gradation. The total value of the articles imported during the first three | corn in that section was very much injured months of 1859, amounts to \$265,457, or about one fifteenth of the value exported. Of this import trade, Cuba is the largest participator, fol-lowed by England. By comparison with the last quarterly statement, the exports have diminished \$1,903,581, and the imports \$298,669.

Coal Trade.

For the week ending Saturday 8,450 tons of coal were shipped over the Cumberland and Pennsylvania Railroad, and 4,711 over the road of the George's Creek Coal and Iron Company. Making a total for the week from the entire region of 13, 161 tons. Total shipments for the year from the entire region, 271,569 tons. Seventy-five bouts cleared this port during the week ending Wednesday, carrying 8,753 tons of coal .- Cemb. Civilian.

Tobacco Sales.

The sales of Tobacco yesterday were animated, and the prices paid showed an advancing tendency. We might quote an advance from 25 to 40c, on all grades of leaf and lugs. This advance is perhaps owing to a good home demand, assisted by specu lators. The aggregate sales amounted to 161 hogs heads.-Petersburg (Va.) Int., 20th.

NEW YORK, July 20, 1859. The stock market within a few days has gone up and down and down and up like a small boat on the ocean surge. On the whole, stocks have declined; Tennessee Missouri sixes, especially the former. Railroad stocks all fell off.

The steamer Asia for Liverpool took out only about \$400,000, a very light export. The money market is easy and quiet, with month bills at six

BY YESTERDAY EVENING'S MAIL.

DEATH OF FREDERICK G. L. BEUHRING.-The last Guyandotte paper contains the account of the death of this gentleman, at his residence, near that place, on the 27th of June, 1859. A native of Germany, he came to the United States in early life, and first settled in Baltimore. After the war of 1812, in which he took an active and gallant part, he moved to Cabell county, Va., where he has since resided. He was a man of much energy and activity, and took the lead in nearly all the various movements for the development of the resources and advancement of the inter ests of his adopted country. He was much beloved and respected by his neighbors and triends, and represented the county of Cabell several times in the General Assembly of the State. At the time of his death he was the Delegate elect, having been returned at the last election.

DESTRUCTIVE FRESHET. That section of Shenandoah lying between Edinburg and the North Mountain, was visited by one of the heaviest rains, on Friday evening last, that has fallen in that section for a number of years. The head waters of Stony Creek, and all its tributaries, in the course of an hour, became swollen to a most fearful extent; and fences, spring-houses, stables, and other buildings, near the creek, were swept away. A team of four horses, belonging to Messes, W. Whisler & Co., of Columbia Furnace, were crossing the creek between Lantz's Mill and Union Forge, a short time after the rain, and were so suddenly overwhelmed by the rising waters, as to render their escape impossible. The horses were all drowned, but the driver fortunately escaped. The spring-house, smoke house, and stables on the premises of John Kingree, dec'd., were carried off by the flood, with a quantity of bacon, lard, &c. There have no doubt been similar losses at other points of which we have not been informed.—Tenth Legion.

TREMENDOUS RAIN AND HAIL STORM .- On Thursday afternoon last, the section of country immediately east of Harrisonburg, was visited by a terrible storm. The hail was some of it very large, while the rain came down in torrents for perhaps an hour. The

[COMMUNICATED. The brief communication of R. in yesterday's Gazette prompts me to urge upon the City Council, the importance and necessity

of having the lines of the streets ascertained and established, and so fixed by certain monuments, that errors may bereafter be avoided, as well as the numerous incoveniences growing out of the varying views and measurements of successive Surveyors.-This subject has been frequently urged b former Surveyors, Mr. Ewing and Mr. Hallowell, among them; and their views seem to be embodied in the general law of the Code of Virginia respecting City Corporations. It would appear to any one familiar with the many troubles we have had, and who can foresee the many more we may have, that it is an easy and obvious duty of our Council to have the street lines, regular or irregular, so laid down that mistakes shall be inexcusable, and I trust that this duty will be performed. AN OLD CITIZEN.

COMMUNICATED. Who that reads the article from the Richmond Enquirer, in to-day's Gazette, concerning the Administration, and who voted at the last Presidential election for Millard Fillmore, is not pleased to recollect that he refused to aid in bringing into power, the men who are now controlling and directing the public affairs of the country? And let all who were then deceived into supporting Mr. Buchanan, remember that they owe it to themselves, to "right the wrong" by going at the next election for a national, conservative man, opposed to the doings of the present A WHIG. Administration.

In the Preparatory School, premiums were awarded to A. Jackson Ballenger for Punctuality; to Wm. Goodhand for Observance of Rules, and to Stephen Wools, jr., for Diligence in Studies.

After the distribution, the Valedictory was delivered by Walter Harrison Reid of Fairfax County, and it is due to this young gentleman to say that he performed the part assigned him in a masterly manner, his address being exceedingly well written and appropriate in itself, and being delivered in the most graceful manner.

The Principal then announced that the original dialogue "Honesty the best Policy," re quired the cleaning of the stage, and a change in dress on the part of some of those who were to take part in it; it had been omitted at its proper place in the programme, and would conclude the exercises, and it was accordingingly performed in character by Cla rence B. Gwynn, Richard H. Lyles, Henry Clay Emerson, J. Samuel Wimsatt, Jesse Murray, and Patrick F. O'Gorman; the last named young gentleman, by his imimitable delineation of Irish character, and fine rendering of Irish songs, bringing down the house. The audience slowly dispersed, a little before six o'clock, highly pleased with the entertainment.
